Looking for Junior-Mid Web Developer position, interested in Full Stack Developer, App Development, FinTech and Software Development companies.

## Skills

### Positions

Front End, Full Stack, DevOps Engineer

### Experience level

Junior, Mid

### Core skills

HTML/CSS, JavaScript, React

### Other skills

Github, .NET, C#

### Work eligibility

UK

## Preferences

### Work type

Onsite, Hybrid, Remote

### Work timezone

UTC-2:00 - UTC+2:00

### Tech stack/Tooling

HTML, CSS3, JavaScript, React

## Languages

English (fluent)

## Experience

### Web Developer (Freelance), freelance

2023 - Present (8 months)

I've started off as a freelance Web Developer, working with a new client who needed a website built for their fast food restaurant. What I've achieved during the freelance process is:

- Collaborating with the client to develop a visually appealing and responsive website using HTML, CSS, and JavaScript.
- Implementing modern design practices to create engaging user experiences.
- Utilising Git and GitHub for version control and collaborative development.
- Successfully deploying my projects on Netlify demonstrating my understanding of deployment strategies, crucial in full-stack roles.

### Accounts Assistant, TrustFord

10/2017 - Present (5 years 11 months)

- My job role consists of both monthly and daily duties.
- My monthly duties are going out on stock checks the first of every month, in which I count up all the cars which are supposed to be on site as well as count up the petty cash for our Service department, Reconciling our parts invoices for the month, making sure our month end balance sheet is correct and up to date to give to the Accountant to present to the GM.
- My daily job roles consist of processing customer payments and settling any outstanding finances for customers to Ford Credit.
- Reconciling our bank statement for the apprentice to work on, processing invoices, Journal entries as well as providing help when needed to the accountant.
- As well as monthly duties which include closing of Purchase, Sales & Nominal Ledgers.

### Accounts Assistant, Glyn Hopkin

04/2014 - 10/2017 (3 years 7 months)

### Accounts Assistant, Liberty Christian Connections

02/2014 - 04/2014 (3 months)

### Accounts Assistant, Tesco

07/2009 - Present (14 years 2 months)

Currently also work part time as a Customer Service Assistant, where I've gain experience in the following skills: Communication, Active listening, Problem-solving, Patience & Multitasking

## Education

### Codecademy

2023 - 2023 (1 month)

#### JavaScript

During this self-paced online course on Codecademy, I gained a comprehensive understanding of the fundamentals of JavaScript programming. Through hands-on exercises and interactive coding challenges, I learned key concepts such as variables, data types, control structures, functions, and more. The course also covered essential topics like DOM manipulation and event handling, enabling me to create dynamic and interactive web content.

By doing this course, I not only developed a strong foundation in JavaScript but also gained practical experience in problem-solving, debugging, and applying best practices in coding. This educational experience has equipped me with the skills necessary to contribute effectively as a Junior Front End Developer and to collaborate on web development projects that demand a strong grasp of JavaScript.

My commitment to continuous learning and my ability to apply newfound knowledge to real-world scenarios make me confident in my capability to contribute meaningfully to front-end development projects.

### freeCodeCamp

2022 - 2022 (1 month)

#### FrontEnd Development

What I've learnt during my recent studies on this Web Development course is learning the languages developers use to build webpages; HTML, CSS&JavaScript. I've learned how to make web pages respond to different screen sizes using flexbox as well as building projects such as café menus, making CSS colour markers, registrations form, survey, tribute page amongst a few others.

I am now learning the Frontend libraries that are currently being used by developers, by learning how to style pages using bootstrap before moving on to being able to create powerful single page applications using React.

### Barking College

2005 - 2008 (3 years)

#### Association of Accounting Technician Level 3 & 4

## Projects

### Portfolio

2022 - Present (1 year 8 months)
